

Click IT Solutions

Business Email Services

Click IT Solutions® Delivers Microsoft® Exchange 2010 with More Value for Money - Special Features Included for Free! **LESS THAN USD\$15 / MAILBOX (25 GIGABYTES EACH)**

Click IT Solutions Hosted Microsoft® Exchange 2010 delivers always available email and collaboration tools that maximize productivity and save you time and money. You can leverage this Fortune 50 infrastructure and benefits without the up-front capital expense, regardless of the size of your business or how much IT expertise you have in-house.

Click IT Solutions augments your IT team by handling the licensing, patching, server and network management, and complete monitoring for Exchange. This keeps your staff on track to focus on more strategic initiatives. We also even include a variety of free features with every 25 GB plan, where other providers may charge up to \$400 a year for these services.

99.999% Uptime Exchange Service Level Agreement (SLA)

With the Microsoft Exchange 2010 service, Click IT Solutions provides an industry-leading uptime guarantee with a 99.999% service level agreement. This ensures that your email and tools are readily available when you need them.

What if you could gain one hour of productivity per month from each member of your staff?

Our Hosted Microsoft Exchange 2010 delivers email that is always available. So there are no more lost messages or outages to take time away from your business. And with the added bonus features that Exchange offers, your staff can streamline productivity by sharing calendars, contacts, documents and more - from anywhere, any time.

Plenty of Mailbox Storage – in 5GB and 25GB options for users who send and receive large files or lots of email.

Access to Email Anywhere, Anytime – from your desktop, browser or mobile device.

Automatically Sync Email with Your Smart Phone and iPhone – included free, or add Blackberry mobile messaging.

Share Address Books, Calendars & Assign Tasks - with users anywhere in the company.

Share Documents, Presentations and more when you add SharePoint intranet service.

Free License for Outlook 2007 or Entourage 2008 – gives you a professional email client to manage your mail on Windows or Office for Mac – Save \$60 or more per seat.

Bonus Features Bundled Exclusively with 25 GB Plans:

Message Mirror™ - Monitor and organize messages for compliance with company email policies. This solution creates a copy of every email message – incoming and outgoing – in a separate folder so you can refer to it when needed.

- Retained Record of Message Details.
- Customizable Rules and Settings for Archiving, Sorting and Retaining Messages.
- 2 GB of Disk Space Included for Storage.

Compliant Email Archiving - You specify an archiving service provider and set up an account with them.

- All Compliance Regulations are Covered – SEC, NASD, Sarbanes-Oxley and NYSE.
- Messages are Transmitted, Stored Off-site and Backed Up with the Highest Levels of Security.
- Access is Strictly Controlled.
- Compliance Officers and IT Managers Can Set Detailed Parameters with Compliance Management Software.

Company Disclaimer - You can impose company-wide email policies like a signature or legal disclaimer for all email that your staff sends outside of the organization. These disclaimers cannot be edited or removed by the user.

DirectoryLink Active Directory Synchronization - You can constantly synchronize on-premise Active Directory user data with our Hosted Exchange Active Directory using DirectoryLink. Keep the same contact info, password and other user-related information.

Simply import it to Our Exchange infrastructure.

Advanced Control Features provided with 25 GB plans give you more flexibility and extensive options for managing your Exchange account.

- **Mail Retention Policy** – Control the mailbox size and set limits for how big it can be.
- **Mobility Policy Management** – Apply and manage BlackBerry and ActiveSync policies.
- **Server Site Selection** – Choose to host your mailboxes in our East Coast or West Coast data centers – or split them between data centers if you have multiple offices.
